

Flourishing Professional Program

Certification program for practitioners to add flourishing science and practice to their work.

Are you a CHRO, CPO, change maker, coach, or consultant looking to learn more about creating flourishing workplaces? If so, this program is for you!

The Certified Flourishing Professional Program offered by the Flourishing Work Alliance and DISCO is an immersive and hands-on experience, designed for seasoned practitioners who would like to augment their own skills and portfolio with the principles of human flourishing.

We'll explore practical applications of tools that promote flourishing at work. We are offering two options to complete the curriculum: 3-month virtual or 1-day intensive (in person or remote). This unique program is a joint initiative from the AUS & USA and led by two dynamic changemakers:

Eleanor Allen,
CEO of

Flourishing Work Alliance

Katy Cooper,
CEO of DisCo

This is a unique opportunity to build your toolkit for a flourishing workplace. Upon completion of the program, you will be recognized as a Flourishing Work Alliance Certified Flourishing Professional Level 1.
