

Executive Flourishing Forum

Because Flourishing People Build Flourishing Organizations

In today's demanding world, it's not enough for workplaces to simply function – we believe they need to flourish. The Executive Flourishing Forum invites leaders to move beyond traditional wellbeing initiatives and reimagine flourishing as a strategic advantage and a true measure of organizational success.

This special event is a special initiative between:

Eleanor Allen, CEO,
Flourishing Work Alliance

Ashish Kothari, CEO,
Happiness Squad

and facilitated by:

Annyse Balkwill, CEO,
LuminUS Group

Join Eleanor, Ashish, and Annyse for a guided journey of self-discovery and practical roadmapping toward organizational flourishing. The Forum is grounded in the Flourishing Work Alliance's Organizational Flourishing Blueprint Framework, informed by leading research from Harvard and Baylor, and strengthened by LuminUS's decade of experience transforming workplaces into flourishing organizations.

It's a unique opportunity to gather like-minded leaders who believe that people and performance grow stronger together.
